

Checkpoint : Job Interview

Question 1: Introduce yourself.

My name Amina Hedhili,
Graduated from the National School of Engineering of Sousse as Mechatronics engineer,
My professional experience was in quality management in different manufacturing companies,
I worked in automotive field as quality leader, also in renewable energy and medical devices fields
and now I retrain myself into Tech field.

Question 2: Name three reasons that you should be recruited instead of another candidate.

1. I am someone who is committed to my job and passionate about what he's doing
 2. I am Tech passionate and eagerly want to learn continuously.
- Always want to give the value-added instead of doing my job back home.

Question 3: Are you responsible?

Yes I am. My managerial experience helps me a lot and develops my sense of responsibility.

Question 4: Tell me about your academic training.

Regarding my academic training, I have an engineering degree in mechatronics from the National school of engineering in Sousse ENISO.
Mechtronics is the combination of electronics, mechanical, automation and computer science too.
I remember being passionate about Object-oriented programming (OOP) and Java language at this time.

Question 5: Name three of your flaws.

1. *I focus too much on the details* but I've learned to manage my focus and doing the most important and most urgent .
2. *I have trouble asking for help* . It's not that bad to be an autonomous person but when the work needs to be done at time by the contribution of all the team, asking for help remains mandatory in this case.
3. *It can be difficult for me to maintain a healthy work-life balance*. Actually I try to built strong healthy habits like working aout daily.
